

**Utilization Management/Medical Management (UM/MM) Update**

As revised, the UM/MM Chapter (Section 6-4), amends the Hospital Admissions and Observation Stays section by providing that in the event of a transfer, AlohaCare's concurrent Review Nurse and Medical director will work with the attending physician and appropriate clinical staff of both the current facility and the receiving facility to facilitate the transfer.

This chapter also adds a section titled "Definitions Related to Emergency Services and Post-Stabilization Care Services". This section provides for the definition of Post-stabilization Care Services.

AlohaCare revised this section: October 6, 2008
