QUEST Integration Formulary Updates

Every 3 months, AlohaCare’s Pharmacy and Therapeutics (P&T) Committee reviews drugs on the QUEST Integration Formulary. This committee includes doctors and pharmacists, who decide which drugs are placed on the formulary.

You can find the most up-to-date version of our formulary by using the “Drug Finder” tool on our website, www.AlohaCare.org. The AlohaCare QUEST Integration Formulary is updated every 3 months and as needed. Please talk with your doctor about any changes to the Formulary that may affect you.
